

Facilities Use Policy

Woods Charter School has been the beneficiary of private and public support in the construction of our school facility to carry out the educational mission of Woods Charter School. We owe a debt of gratitude to the community for their encouragement and contribution. We seek to use and share our facilities with the community while maintaining responsible stewardship of our valuable assets. Therefore, proper oversight must be given to these facilities to ensure that:

1. Adequate facilities exist to effectively carry out the School's objectives and goals.
2. Users exercise proper care and safety.
3. Such facilities are properly protected against loss or misuse.
4. The life of the facilities is extended through a proper maintenance program.
5. Core school activities and school-sponsored co-curricular activities receive top priority at all times.
6. Users abide by the letter and the spirit of the School's Discrimination, Harassment, and Bullying Policy.
7. Users respect the good name of Woods Charter School and take no action which would jeopardize our reputation in the community.
